

# Case Study

Integrally Coloured Concrete Flooring  
& Precast Walling Panels

## The Regent Cinema - Redcar

### PROJECT DESCRIPTION

The all-new Regent Cinema opened its doors in late 2022. The £9.6m venue, prepared by Merlin Cinemas is on the site of the former much-loved cinema which had to be demolished due to structural problems. Bam Construction led the construction of the new building including a large basement area underground, on Redcar seafront. HATCRETE Redcar Sand Adcolour was supplied by HATCRETE to Poundfield Precast who manufactured the concrete precast panels. The HATCRETE technical team visited the site to monitor production from the plant to the slabs being placed.

### PROJECT REQUIREMENTS

To supply 254m<sup>3</sup> of HATCRETE Redcar Sand Adcolour for the precast panel units surrounding the underground basement area and above.

### PRODUCTS USED

HATCRETE Redcar Sand Adcolour was added to the concrete at the precast manufacturing stage.

### PARTICIPANTS

- Client - The Regent Cinema
- Contractors - BAM Construction
- Precast Manufacturer - Poundfield Precast
- Integral Colour Manufacturer - HATCRETE
